

## SINEL GLOBAL SOLUTIONS EXAMPLES

### MATERIS PAINTS ESPAÑA

One of the major paint manufacturers in Spain.

The company was created in 1940 and it commercialises over 4,000 references to date.

#### NEED / PROBLEM:

The client needed to reduce the stock of serigraphy paint pots and the obsolete packages not used in a year.

#### SOLUTION:

**SINEL** sets up in **MPE** a labelling machine **152TS Especial** for the labelling of cylindrical and conic empty pots. This machine automatically applies front and back wrap-around labels, with a maximum length of 450 mm and a maximum width of 320 mm, with selected adjustments through a display.

The machine is adapted to the orienting of the product with digitally-precise adjustable devices for different conic forms and formats of up to 40 kgs., thus, achieving an accurate labelling.

The machine is fitted with pivoting powered dispensing beaks and a label support device which allows for a unique and reliable label application.

#### BENEFITS:

The client has drastically reduced the stocks of packages in his warehouse, considerably optimizing space in his facility.

What's more, he has managed to reduce nearly all obsolete products, given that most pots are neutral and can be used for multiple references.

#### APPLICATION SECTORS:

The **152TS Especial** labelling machine is an optimum solution for all those sectors which use cylindrical and conical pots in packaging. For instance:

- Varnish and paints
- Flour, breadcrumbs, sugar, etc.
- Candy
- Materials for the building sector
- Packagers for third parties

### COMERCIAL QUIMICA MASSO

Founded in 1855. Currently one of most important manufacturers of specific chemical products: gardening products, home products, etc.

#### NEED / PROBLEM:

The client needed a fast and precise labelling for a packaging line with diversity of shapes.

#### SOLUTION:

**SINEL** sets up in **CQM** a **H362TS** labelling machine for double side labelling (front and back). The machine allows for automatic labelling of different type of products: one side, conic, partial and wrap-around labelling, cylindrical, etc.

The major advantage: very few machine adjustments with reliable and precise results.

#### BENEFITS:

This machine has enabled the client to label all the existing products in the shop-floor. He has considerably simplified the initial problems he had. Happy to see flawless labelling.

#### APPLICATION SECTORS:

The **H362TS** labelling machine is an optimum solution for all those sectors which use cylindrical, rectangular and conic packaging. For instance:

- Chemical sector
- Materials for the building sector
- Packagers for third parties
- Foodstuffs and beverages
- Pharmaceutical
- Food industry
