

# H152 C Prisma

**consult SINEL Reference**

Labelling machine for cylindrical or conic products. Easily adaptable to various formats, which require orienting prior to being labelled. Designed for continuous production with product separator, three-roller group, and adjustable speed. Allows product orienting to obtain better label positioning.

Cylindrical product:	<b>Minimum diameter: : 20 mm</b>
	<b>Maximum diameter: 100 mm</b>
Approx. labelling output:	<b>70 prod/min. (*) for ø 50</b>
Max. power consumption:	<b>800 W</b>
Compressed air:	<b>4-6 bar</b>
Labelling:	

*(\*) Depending on product and label*
