## consult SINEL Reference

Labelling machine for front and/or back labelling of a wide range of products. With the option available to apply a third label. It also offers circular, total or partial wrap-around labelling with minimum changeovers. Easily fitted vertical and horizontal change parts afford rapid format changes. Totally modular machine with multiple options: printer, (encoder (batch/expiry date), laser marking, external signals for stop/jam, fairing, etc.

Product:	<b>Rectangular, oval, round, conic, cylindrical</b>
Product width:	<b>25 a 100 mm</b>
Approx. labelling output:	<b>100 Prod/min. (*)</b>
Max. power consumption:	<b>1000 W</b>
Labelling:	

(\*) *Depending on product and label*
