

# H414

## consult SINEL Reference

Semi-automatic labelling machine to label the top or bottom sides of any product. The product is placed manually in a jig and is automatically labelled by means of a sensor, a photocell or a pedal, thanks to a pneumatic movement. Easily adaptable to L or U labelling. Highly precise through patented mobile dispenser.

Maximum label reel diameter:	<b>300 mm. Optionally 400 mm</b>
Labelling output:	<b>30 Prod/min.</b>
Compressed air:	<b>4-6 bar</b>
Maximum power:	<b>500 w</b>
Labelling:
